

# Personal budgets

For children and young people with special educational needs and disabilities (SEND)

## What is a personal budget?

A personal budget is an amount of money given for children and young people who need extra support

The personal budget supports the child or young person to meet the **outcomes** in their **EHC** plan

**outcomes** means the results we want to see

**EHC** stands for Education, Health and Care

## Who can have a personal budget?

You can ask for a personal budget

- when the Council has agreed to make an EHC plan
- during a review of an EHC plan

## What can a personal budget pay for?

Families can ask for personal budgets for

- Education - e.g. transport

- Health - e.g. continuing care

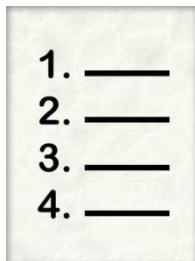

- Social care - e.g. short breaks

We are looking into how personal budgets could be used for other services

You can find out more on

[Camden's local offer website](#)

## Who looks after my personal budget?

There are 4 ways to manage your personal budget

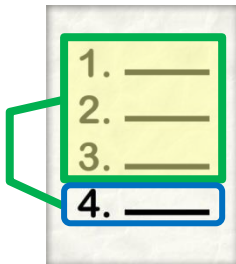

- a direct payment can be paid to a parent or carer (or sometimes to the young person) so they can buy services based on their EHC plan

- a family can ask someone else to manage the money for them

- a family can ask the **Council** or the **NHS** (Camden Clinical Commissioning Group) to manage the money for them

- a family can choose to have a mix of all 3 ways of managing the money

## What's good about having a personal budget?

Having a personal budget can

- give families more choice and control

- help the child or young person get the right support

Personal budgets may not be right for everyone

You can talk about this with your **assessment coordinator** or **keyworker**
